FOR IMMEDIATE RELEASE

Speed Script Partners with PBA Health

LENEXA, KS – May 20, 2008 - Speed Script has added PBA Health, a pharmacy services provider for independent and regional chain community pharmacies, to its list of business partners. According to Ali Raza, Director of Business Development of PBA Health, “PBA Health has had the pleasure of serving Speed Script customers for many years and we are grateful to see the natural evolution of cooperation between our two companies. Many of PBA Health’s successful pharmacies are also customers of Speed Script.”

About PBA Health

Headquartered in Kansas City, Mo., PBA Health offers flexible, market-driven solutions to community pharmacies across the U.S. By providing comprehensive business solutions, PBA Health improves operations, maximizes profits and generates growth for its pharmacy clients.

PBA Health delivers many channels of pharmacy service and support, including pharmaceutical distribution, third party programs, management technology, marketing consultation, financial services, pharmacy benefit management solutions and more. Since 1983 their mission has been to ensure increased success for independent community pharmacies through a diversified portfolio of products and programs.

“We’re very impressed with the team at PBA Health and with the unique products and services they represent,” says Speed Script Director of Business Development, Heath Reynolds. “We look forward to a long and successful relationship with PBA Health that will benefit all our customers.”

About Speed Script

Speed Script is a market leader in pharmacy automation and services, serving independent and small chain pharmacies throughout the United States for 30 years. Speed Script offers software solutions for retail, nursing home, and DME pharmacies. For more information, visit www.speedscript.com.
